

## **LIABILITY DISCLAIMER**

The Municipality of the County of Annapolis does not have control over the canoe routes, portages or wilderness tent areas listed in this guide, and therefore assumes no responsibility for the safety of the canoeist paddling the route, walking the portage, or using the wilderness tent areas.

We recommend that users approach all canoe routes and wilderness tent areas in a safe and responsible manner, and conduct visual inspections whenever possible and practical. Conditions can change through fluctuating water levels, addition of natural debris, and commercial logging activity. As we are not the owners of any of these lands or routes, any special arrangements must be made directly with the owners and you are accountable to them for any damage, loss or other problems that you may cause.

Although the information in this guide is believed to be accurate, we assume no liability for any errors or omissions that may exist, or for changes that may have occurred on the routes after the publication of this guide.

We recommend, as a supplement to the information herein, that you use Natural Resources Canada 1:50 000 topographical series maps of the general canoe routes.

Annapolis County Recreation Services requests that you read the sections on Safety, Equipment, Trip Planning and Wilderness Ethics before you travel on the lakes and waterways of the region. Always tell someone where you are going and when you are returning. Please be aware that many portages /canoe carries are not marked.

Please follow the principles of the Annapolis County Back Country Watch Program:  
**Keep a Watchful Eye on Our Wilderness and Help Keep It Clean !**

**Pack It In and Pack It Out!**  
**Conserve, Protect and Respect**

# Corbett and Dalhousie Lakes

# Route 12

This route consists of two lakes which are part of the Nova Scotia Power Nictaux Development. The water levels in each are controlled, and fluctuate with the demand for hydroelectric power. Dalhousie Lake is in reality a section of Bloody Creek that has been dammed to form the present lake.

Corbett Lake has a generally rocky shoreline, but is abutted as well on its south side by a large bog and low, wet areas. Dalhousie Lake has a wet, grassy shoreline that offers few opportunities to beach a canoe. Loons and other waterfowl are numerous.

**Length:** 5 km  
**Time:** 1 day

**Approach:** South from Bridgetown to Carleton Corner and intersection with Highway 201. Left (EAST) on Highway 201, 300m to intersection of Morse Road. Right (SOUTH) along Morse Road, approximately 8km to intersection of Neaves Road.
